It could be made slightly better by labeling words for the function they perform, such as nouns, verbs, adverbs, pronouns, etc. It it's not as exhaustive as I would like, in that I've occasionally noticed that certain fairly obvious words are missing (the word "Kin", meaning "long", for instance). This dictionary has been immensely helpful in my self-study of the Korean Language, and I highly recommend it to other learners.0 of 0 people found the following review helpful. Korean dictionary w/many wordsBy Everett A. HaldimanI received this in a very timely fashion and in excellent condition with excellent packaging. I have been using it and it is exactly what all the advertising stated, a dictionary with many, many korean words. Thank you and keep up the good work on shipping. I was thoroughly impressed and pleased with my purchase.0 of 0 people found the following review helpful. Studying KoreanBy Curtis WrightThe best physical dictionary bar none.

This is the latest Deluxe Edition: 5th/2015. The Essence Korean-English Dictionary along with its companion volume, the Essence English-Korean Dictionary, was chosen as the best in quality and most comprehensive in scope for English speaking people to be published in the United States of America. These dictionaries have enjoyed such a superior reception in Korea, it would be fair to say that almost everyone in Korea has grown up with them.
