An excellent followup to both Mastering Arabic 1 w/audio CD and preparation for the Mastering Arabic 2 w/audio CD book. There are a few crossword puzzles, word searches and other games in it to make learning fun, as opposed to boring and repetitive. As an individual trying to learn the Arabic language on his own, I found the Mastering Arabic books to be helpful, especially with the native speakers on the CDs allowing you to learn the correct pronunciations of the letters, numbers, words and various phrases. The Activity book is an excellent companion to the first audio CD and book of the series. Recommend using the activity book in conjunction with the first book to help

with reading and writing out the Arabic script, as well as mastering various common phrases, words, names, letters and numbers. If you're planning on taking courses in Arabic and are looking to get a jump start on the language, this series would be beneficial. My only complaint (and I wouldn't even call it a complaint) is that there isn't a Mastering Arabic 2 Activity Book. (And if there is, I wasn't able to find it on .) 4 of 4 people found the following review helpful. Great companion to the first book By Kyle Metzger This book is a great companion to the first book. It goes right along chapter by chapter. The only thing I wish is that it would have had even more exercises. There were a large amount but since arabic is written differently, it can be difficult to write it on regular notebook paper and so this is a great way to practice without feeling backward. A must have set! 11 of 11 people found the following review helpful. Cute, adorable, and provides the repetition learners need! By Alexandra Smith If you bought the Mastering Arabic text, you should certainly, certainly get this adorable workbook! It really helps everything you learned in each chapter of the textbook sink in, plus its fun. I just wish they would make one to go with the intermediate text too!

This second edition of the Activity Book has been updated to match the changes in Mastering Arabic 1, 3rd edition (2015). The Mastering Arabic 1 Activity Book provides a wealth of practice material for all beginners who want to understand, speak, and read Modern Standard Arabic confidently. Ideal for classroom use or self-study, the twenty practice units in this Activity Book mirror the twenty units in Mastering Arabic 1, 3rd edition, but this book also works well with any beginning Arabic course. Includes over 100 carefully-paced, engaging, and varied activities to reinforce vocabulary and basic concepts; user-friendly lessons filled with cartoons, graphics, games and lively exercises that cover everyday topics like family, jobs, school, eating and drinking, and more; reading and handwriting practice; and an answer key to help students measure their progress.
