Sandra Luna McCune, Shannon Reed : McGraw-Hill Education GMAT 2016: Strategies + 8 Practice Tests + 11 Videos + 2 Apps (Mcgraw Hill Education Gmat Premium) before purchasing it in order to gage whether or not it would be worth my time, and all praised McGraw-Hill Education GMAT 2016: Strategies + 8 Practice Tests + 11 Videos + 2 Apps (Mcgraw Hill Education Gmat Premium):

0 of 0 people found the following review helpful. Do not buy if practice tests are your goal By Bob Test tests that are provided use a shared pool of questions so you do not get 7 practice tests you get several permutations of maybe three tests. Another rather large issue is that some of the questions are miss worded and thus impossible to solve. the photo is of one like that where the question says 1/3 cats and 1/3 dogs but the answer requires there to be 1/5 cats and 1/3 dogs. The book it self is mildly helpful but the tests are not worth it. 0 of 0 people found the following review helpful. I

would recommend something elseBy Connor P.I have been using this book for about a week and have found several errors in the practice questions. I would recommend something else. I only bought it because it was cheap and my Kaplan book is in a box with my movers.

This go-to study guide provides the concepts, study strategies, and practice students need to dramatically raise your GMAT scoreMcGraw-Hill Education: GMAT focuses on the fundamental concepts tested on the exam as well as the reasoning and analytical skills necessary to overcome common traps.The book covers the foundations of each essential concept, introduces strategies developed by the authors, and includes review exercises in each chapter so you can increase your test-taking confidence.Practice Test App includes 6 additional testsTest Planner app helps you organize your time and set your own study schedulesAnswer keys provide full explanations that identify common errors

About the AuthorSandra Luna McCune, PhD, is a former Regents Professor at Stephen F. Austin State University in Nacogdoches, Texas, where she received the Distinguished Professor Award. Dr. McCune has served as a statistical expert witness in both state and federal court. She is now a full-time author and consultant. Shannon Reed is the author of numerous test prep books and has tutored hundreds of students in preparation for various standardized tests. She teaches writing at the University of Pittsburgh.
