Neil Bobenhouse : McGraw-Hill Education's Medical Spanish Visual Phrasebook: 825 Questions Responses before purchasing it in order to gage whether or not it would be worth my time, and all praised McGraw-Hill Education's Medical Spanish Visual Phrasebook: 825 Questions Responses:

0 of 0 people found the following review helpful. Five StarsBy selective shoppereasy reference0 of 0 people found the following review helpful. Great informationBy R. AbadThis is a very complete book for medical interpretation. It can also be helpful for people who want to become a medical interpreter.0 of 0 people found the following review helpful. Two StarsBy M. Peysson Rodrigueznot very helpful for front desk medical

Communicate immediately with Spanish-speaking patients simply by turning the page As a medical professional, you need to be prepared for anything. But what if that anything is a language barrier with your Spanish-speaking patients? McGraw-Hill's Medical Spanish Visual Phrasebook helps you overcome this difficulty and understand your patients' needs. With no experience in the language, you can locate an accident victim's injury; find out how long a pregnant woman has been in labor; let an elderly man know you are starting an IV; and reassure a worried parent that an interpreter is on the way. McGraw-Hill's Medical Spanish Visual Phrasebook works in three easy steps: Point to each question. Patient responds with a simple head nod, with a "yes" or "no" answer, or by pointing to a diagram. Continue using the phrasebook to assist with patient assessment. Just point and flip, and you can close the communication gap between you and your Spanish-speaking patients.

About the Author Neil Bobenhouse, MHA, EMT-P, is a paramedic for the St. Louis City Fire Department. He received his master's degree in healthcare administration from the Saint Louis University School of Public Health.
