recommended to me by an extremely talented and nationally recognized attorney as one that had helped that attorney get her latest position. I was surprised that she would have needed help, given her qualifications, but upon reading this book, I can see why. This book assists a person who is looking for a job or interviewing to create a story so that they can communicate their skills and strengths in a meaningful and compelling way. It would be nice if one could interview and just say "I am great, hire me!", but since that doesn't work, this book can help you organize your thoughts and present yourself in the best light possible. 4 of 4 people found the following review helpful. ****LIFE CHANGING BOOK****By CL Oregon The book "Monster Careers: Interviewing" essentially changed my life (no, I'm not being sarcastic or funny Monster Careers: Interviewing: Master the Moment That Gets You the Job.) I always had trouble with interviews and with this book I knew what to say, how to say it with confidence and how to take command of the interview so that I directed the questions to the areas I wanted to talk about. With this book I landed my current job and I made it to the top three candidates for this very high level job (didn't get it, but still, there was nearly a hundred candidates.) Read this book, learn what it has to say, and win the job. I can't speak highly enough about this book. 0 of 0 people found the following review helpful. Good information, but cheesy anecdotes By CW OI found this book very helpful in terms of the example questions and answers it gives, the suggestions it offers for how to present yourself, prepare for an interview, and then follow up. I think it's a good read, well organized and informative. However, each chapter begins with a fictitious interview to illustrate a point, but most of the time these end up being squeamish-inducingly cheesy, things I would never consider saying or doing in an interview (which is why I am not giving it a 5 star rating). Overall though, definitely worth the purchase.

Jeff Taylor, founder of Monster, offers definitive advice on honing all the skills necessary to prepare for and ace virtually any kind of job interview. Step by step, the book clearly shows how to stay comfortable in high-stress situations, build self-confidence, effectively sell one's marketable skills, and make a great first impression. Readers will also discover the questions and answers they are sure to encounter in an interview and invaluable advice on handling a wide variety of interviewers by getting the inside story from the employers perspective. Loaded with helpful case studies and backed by Monster's impeccable credentials, this book is sure to establish itself as the source for becoming an expert on the most critical part of a job search.
