4 of 4 people found the following review helpful. AwesomeBy LornaThe 5th edition of Museum Registration Methods is a must have for every Museum Curator, Staff, Board, and Volunteer. This well written book gives practical advice and excellent examples on how to run a Museum. Content ranges from the paperwork and policies of a Museum to hands on Museum work. Our copy of Museum Registration Methods, 5th Edition is already well thumbed and highlighted. This book will help us to keep our Museum up to high standards which in turn will further preserve our collection for years to come.2 of 2 people found the following review helpful. The book is quite good for art museums.By Sal vaI just order this book by mistake and had to return it. However, I can recommend this for any person eager to keep museums' collections perfectly registered. It's an excellent book on the topic and a must have reference book.As for the seller, they were always ready for any query on shipping or even were very kind regarding

the return of this book. I do strongly recommend this seller for any book order.0 of 0 people found the following review helpful. Five StarsBy Wm RYou may not like the price, but this is an essential text.

The first new edition in a decade of this now-famous "Bible of the museum registrar." Rewritten, expanded and fully updated, MRM5 encompasses all that needs to be known and done when a museum accessions, measures, marks, moves, displays or stores an object or artifact of any kind. MRM5 includes expert advice from more than 60 acknowledged leaders in their disciplines. New with the 5th Edition are special teaching sections that challenge students and seasoned staff alike with questions about the process and procedures of accessioning and caring for objects. Contains bibliography, glossary and multiple sample forms.MRM5 continues a tradition of museum publishing that began with the inaugural edition in 1958. Published in cooperation with RC-AAM, the Registrars Committee of AAM.

MRM5 gives us the foremost example I can cite of the best minds in the field working together continuously for the benefit of all our museums and the publics we serve. The collective wisdom of more than 100 registrars and other experts is found on the pages of this book. It belongs on a shelf, within easy reach, in every museum. --Ford W. Bell, President, American Association of Museums
