I really like reading it to her, and she enjoys the pictures as well. The only issue I have with this book though is that I feel as if though there isn't enough clarity between some of the "opposite" pictures.0 of 0 people found the following review helpful. perfect for our familyBy F. CostaThe illustrations are very nice. This is a good book to inspire my husband to speak to our baby in Cantonese. I like that not only Mandarin, but also Cantonese speakers can use this book. It is useful for Chinese speaking parents to teach their American born kids. I plan to purchase more books in this series.This book does not include pronunciations for English speakers- it is best for kids who are already growing up bilingual and have speakers of both languages in the family.0 of 0 people found the following review helpful.
